Walmart

Dear [redacted],

Thanks for contacting Walmart Customer Care and giving us a chance to help you. Your satisfaction is important to us so we'd appreciate feedback about your recent experience.

Walmart does not have a footwear policy for customers in accordance with State policy. We do ask that you simply use caution if you choose to shop barefoot. Please provide the store location where you were told that you cannot enter with barefeet in order for us to inform the appropriate staff at the district level so you may continue to enjoy your experience shopping with Walmart.

Thanks for taking time to share your thoughts with us!
